

I recently sent out a note to folks about the amount of NRA Foundation Grant funds that had been given to 4-H shooting sports groups across the state. Of the \$75,000 + 4-H grant applications that were submitted over \$72, 000 were funded. This is an enormous show of support for the 4-H Shooting Sports Program.

With this in mind I am encouraging every Club that received funds to contact their local NRA Friends committee and let them know how much the 4-H appreciates their support. In addition to this it, would be appropriate to ask how we could help them.

If your county or club did not make a grant application to the NRA Foundation now would be a good time to get to know these folks

Below is a list of each NRA Friends Banquet and their contact information to help with follow-up.
